

Faith That Works

Questions to Consider, May 19th, 2019

Everyone wants to have faith that works, but not everyone is willing to put in the work to have that kind of faith. The Bible says that faith without works is dead. So what does faith that brings supernatural results look like? Today's message will show you how to exercise faith in everyday life.

Read John 15:7. What does it mean to abide in Christ and what would doing so require of you?
How would your life change if your words continually matched God's word?

Read James 2:24. Believing for something to happen is often not enough. Is there a situation where God is prompting you to greater effort and action? Break down that situation into steps. What do you need to do first, second, third, and so on?

What do you need to do consistently?

On several occasions, Jesus remarked that his disciples had little faith. In one story, the disciples asked Jesus help increase their faith. Is there any area where you need more faith? Take a moment to ask the Holy Spirit to increase your faith.

Going into the rest of your week and beyond, speak words of faith, plan for the best outcomes, and expect results. God is working as you persevere in working with him.
